In beginning of song #3 cymbals is still very high. In song #7 high cymbals is occur also, at the end for example, but it's sound not so much as at first seconds of song #3.

In all other sound is amazing! So I'll release it in 500 copies as told you. If you want you can send me all material, and I'll give you know exact time intervals, where I still listen high cymbals.

Hi cymbals? This is the sound as we recorded it in 1999. You know it's not a top notch production! We had less recording options at that time. I'll try to fix some of the "high" crash cymbal sound, but you know I don't want to loose other frequencies in the overall mix. When you cut some "highs", you loose something else, so we want to have a good mix.

I will send you a master via Filestube or an original one by mail if you want. As for the artwork, it should be finished at the end of January.

We'll keep in touch!

Regards,

Sebastien

As for the artwork, we will work some more pages with lyrics and more infos. Is it ok with you? What kind of templates we should use for the printing? And how many pages-booklet you would like?

Usually I don't print booklets, only Digi like this:  
[http://kunsthauch.com/pic/BattleDagorath\\_CD.jpg](http://kunsthauch.com/pic/BattleDagorath_CD.jpg)

As you can see you will have 6 panels for information (include 1 for cover and 1 for track list). But if it's not enough, I can print separate insert (booklet) with any quantity of pages. I've attached template for Digi. Also I need picture for CD.

Well we are finishing the mixing/mastering at the moment for the release of our new album Ritual of the End. I will work on Moonrise right after that, in two weeks. Do you want me to work the old design again, or a complete new artwork for that re-release?

Cheers,

As you want. I think new would be better, however I like old cover. During year my possibilities and wishes in release formats are changed, so I've attached templates for two variants of Digipack. Choose what you like more. Also now I release from 100 till 300 copies editions. Here are some examples:

[\[\\[\\\[It's still factory CDs, not CDRs.\\\]\\\(http://kunsthau</a>ch.com/pic/scream\\\_DyingSun2.jpg</p></div><div data-bbox=\\\)\\]\\(http://kunsthau</a>ch.com/pic/scream\\_DyingSun1.jpg</p></div><div data-bbox=\\)\]\(http://kunsthau</a>ch.com/pic/Kalmankantaja1\_CD.jpg</p></div><div data-bbox=\)](http://kunsthau</a>ch.com/pic/MidnightOdyssey1_CD.jpg</p></div><div data-bbox=)

Give me know, if this format and quantity is ok for you.

Hi,

I started working on the new cover. In fact, I would like to preserve the old cover, so I re-scanned the original painting done for that album in 1999. I think we should keep it simple. As we prepare ourselves to record our sixth album, "North", in January, I think that maybe we should record a bonus song for that re-release? Maybe one of the song of Moonrise could be re-recorded as an 2014 version?

Let me know what you think about it?

Sebastien

Great! I'm working on the artwork right now, I should send you something really soon. We would like to include as a bonus track, a cover of the cult band Obtained Enslavement from Norway. That would be cool, but it's impossible to find the lyrics for that song (Dark Holiness, it's on their first album, Centuries of Sorrow from 1994). If I'm able to find them, we could include a bonus song. If not, I will think about something else.

Thanks,

Sebastien

I talked to Ted from Crypt Records (they re-released the Centuries of Sorrow 2LP in 2011) and He said that they don't even remember the lyrics! In fact I'm not sure there is any lyrics for this album, the vocals are completely not understandable!

I will think about something else. We made a cover of "Freezing Moon" by Maayhem, it was intended for our next album "North" but honestly that song has been covered so many times... so I'm not sure. We already recorded guitars vocals and bass, only the drum is missing. Do you think it would be nice? Or maybe we could only re-record one one Moonrise songs as an 2014 version. Or simply compose a new song for this!

Hi,

Ok so we decided that there will be 2 bonus songs on the re-release of Moonrise. The cover of "Freezing Moon" and an old song called "Guerrier des Brumes" from a Quebec black metal project called "Blizzard" that started around the same time as SDG in 1997. In fact, that song will be total SDG with old feeling from the Moonrise era, but my friend from Blizzard will contribute with some guests vocals on it. We will record everything at the end of January.

Hi,

As we would like to add 2 exclusive tracks for this release, we have to record drums for it. It will be done this fall. I think it is worth the wait, as this should attract people more to buy the release with some "extras". What are your thoughts on it? If you prefer, we can only make the re-release without any extra tracks.

Please let me know!

&gt;&gt;&gt;&gt;

&gt;&gt;&gt;&gt; As we would like to add 2 exclusive tracks for this release, we have to

&gt;&gt;&gt;&gt; record drums for it. It will be done this fall. I think it is worth the

&gt;&gt;&gt;&gt; wait, as this should attract people more to buy the release with some

&gt;&gt;&gt;&gt; "extras". What are your thoughts on it? If you prefer, we can only make

Hi,

How are you? So we are planning year 2016 and it's going to be a BIG year for SDG. "North", our new album, will be released on march, a double vinyl including both versions (old and re-recorded version) of Snowland, a

split album with a French black metal band, and of course our project together for the re-edition of Moonrise in Total Darkness. We talked about a digipack release, that would be great.

We will have a Mayhem cover song (bonus track) that I will include on that release. When can we set the release for that? I already did a cover design for that, but as I'm not really good in doing artwork can you help me with that?

Also, do you have a Facebook account? Because I'm not checking these emails often. You can go through the official SDG page ([www.facebook.com/sorcierdesglaces](http://www.facebook.com/sorcierdesglaces)) or at our new email adress: [sdgofficial@outlook.com](mailto:sdgofficial@outlook.com)

Thanks

Hello! Release date depends of readiness of material and artwork, so I can say only "somewhere in 2016".

It's my unofficial facebook: <https://www.facebook.com/fatum.fatumovich>

I'll contact you through it then.

Yeah, it's not very good... Well, I can order paintings from artist, but I need the whole re-mastered album in WAV. Here are examples of painter works:

I'll say him to keep the original cover sense. Also I need your logo.

In vector format if possible, or just in best quality.

Ok. That is important for us to have the original cover of Moonrise in Total Darkness. I don't want to have another design for that. The same goes for the re-release of our first album, we keep the original cover. The same goes for the music contained. I will have a "small" remaster, add some EQ, balance volumes, etc but it will be almost the same as the recording we did back in 1999.

Are you interested in a co-release with Galy Records for that? Because Galy will re-release some of our old albums, starting with a 2CD of both the old version of Snowland and the re-recorded version we did in 2012.

Hi again,

Well, I thought about that, I know that we that project together to release that CD, but Galy offered me a fantastic deal to re-release all our albums... and I really can't refuse that. He is a friend of mine and we work well together.

I'm really sorry about that, but I have to cancel that project with you.
